What could be the problem if a Nissan with ZD30 engine

...

The has been a recent discovery that will solve the blown engine problem with the Nissan 3 ltr, the reason the motor blows is because the new euro emission laws make the engine recirculate the exhaust gasses back into the engine, this causes the engine to clag up (soot and oil mix together causing a blockage in the exhaust chambers) the turbo then over boosts as it gets blocked too (this can ...

3 ltr Nissan Diesel problems resolved | 4x4Earth

The ZD30 engine was used right up until the end of Y61 production in 2016. The other problem suffered by the ZD30 was down to the actual engine's slow responses to commands from the computer. Typically, that manifested in damaging boost spikes where the computer detected an overboost situation, but the engine hardware was too slow to over-ride the situation.
